

WIM/WiN-SK Post-secondary Scholarship

Overview

Parity drives growth. In order to achieve this vision, the mission of Women in Mining/Women in Nuclear - Saskatchewan (WIM/WiN-SK) is to connect and inspire a diversified workforce to be fully engaged in the Saskatchewan mining and nuclear industries. WIM/WiN-SK is offering three scholarships to promote greater participation of women in industry — in employment and leadership. The scholarships' aims are to support a student embodying WIM/WiN-SK values and leading diversity in industry. Additionally, the scholarship winners will engage, build and grow the WIM/WiN-SK student network.

Our intention is to award three WIM/WiN-SK post-secondary scholarships of \$1,000 in September 2018. One scholarship will be awarded to two university students — an undergraduate and a graduate student, and one to a student in a technical/trades related program.

Student Criteria Eligibility

- Current member of WIM/WiN-SK. (Membership is free and applicants may join at any time. Go to www.wimwinsk.com to join.)
- Enrolled at an accredited post-secondary institution in Saskatchewan in a program related to fields of minerals, mining, nuclear, and radiation. There is no limitation as to the program of study, as long as a link between the program and the mining and/or nuclear industry can be demonstrated.
- Full-time student in good standing, enrolled during the 2017/18 term, and returning in the 2018/19 term. (Those entering a co-op or internship term are *not* eligible). All full-time students, including those enrolled in certificate, diploma, undergraduate, and graduate studies qualify.

Applications must include:

- Application form (download a copy from WIM/WiN-SK website: <http://www.wimwinsk.com/>)
- Signed privacy and publicity statements
- A copy of the most recent academic transcript (unofficial is acceptable)
- Resume
- Short essay or presentation. Candidates will be assessed on their answers to the three following questions. While essay/presentation content will be weighted most strongly, professionalism and grammar will also be given consideration.
 1. How does your program of study relate to the mining and/or nuclear industry?
 2. How will you support diversity within the mining and/or nuclear industry?
 3. If awarded this scholarship how will you engage the student population at your institution as a representative for WIM/WiN-SK?

Answers can be provided in the following formats:

- Written (maximum 500 words)
- PowerPoint (maximum 10 slides)

Expectations of Recipient

The recipient of the 2018 WIM/WiN-SK Scholarship will:

- Based on their interests, have opportunities to volunteer (with the help of the Volunteer Chair) in WIM/WiN-SK activities.

WIM/WiN-SK SCHOLARSHIP APPLICATION FORM

All applications received prior to April 15, 2018 will be considered received and eligible for review.
